— Targeting Britain's 13 million foodies, we conduct regular industry leading research which enables us to understand the shifting trends and demands of this influential group of consumers. We are able to convert this data into actionable insight which is used to shape highly impactful campaigns (including branded content, original video, product placement, talent endorsements, experiential and native digital display) which we run on behalf of our strategic brand partners. We leverage this insight and access to the best culinary minds to create and deliver campaigns that help solve our brand partners' challenges and deliver ROI.

Designed to inspire our audience, we create exclusive content for brand campaigns. Some are designed to get our audience to cook with a partner's premium produce and ingredients (e.g. Norwegian Seafood), try new techniques (e.g. Sous Vide cooking) or on-trend cuisines (e.g. gluten-free flour from Doves Farm). We have worked with drinks brands to help them own specific types of cocktails (e.g. Fever-Tree and gin & tonic), created branded recipes and rich video content with top chefs featuring products to inspire people to cook and ultimately drive purchase. Many of our partners have worked with us year after year and consider us a key partnership as part of their go-to market strategy.
